Our Mission...
Pathway’s mission is to provide housing in conjunction with supportive services to homeless adults dually-diagnosed with substance abuse and mental illness, so they may begin their recovery, become financially self-sufficient, and begin healthy, independent living upon placement in permanent housing.

Our History...
Pathway began in 1989 with a single building and three staff members providing 24-hour care to 21 homeless adults. Today Pathway operates six facilities providing a continuum of care, beginning with supportive housing and ending with permanent housing for nearly 100 individuals and families.

Our Programs

Pathway provides housing in conjunction with support services to homeless adults facing barriers, such as substance abuse and mental illness, which prevent them from accessing and sustaining mainstream housing opportunities. Pathway helps participants become mentally and physically stable, financially self-sufficient, and prepare for independent living following placement in safe, affordable, substance-free, permanent housing. Pathway’s programs were created by renovating previously uninhabitable properties, thus helping to achieve the goals outlined in the Blueprint to End Homelessness.

1. Supportive Housing

Pathway-I is a 21-bed supportive housing program for homeless individuals battling addiction and mental illness. Services include: case management, individualized goal planning, mental health and substance abuse services and support, HIV education, relapse prevention, budgeting, daily-living skills, peer leadership, self-help groups, housing placement, discharge planning, and after-care support.

2. Semi-Independent Living

Semi-Independent living programs serve as a second step for participants in need of additional time and support to prepare for complete independent living. Residents share fully furnished homes with private bedrooms. Participants must have 90 days of continuous sobriety, 90 days of consistent employment or income and enter into six month lease agreements.

3. Permanent Housing

Permanent housing provides safe, affordable, substance-free, housing to individuals and families exiting transitional living programs. Participants must have six months of sobriety, six months employment or income and enter into one year lease agreements.

Pathway to recovery Testimonials

“I am grateful for the life Pathway to Recovery helped me regain. I do believe that others can have my experience if they follow a few simple rules and allow people that have had their same experiences guide them. Pathway to Recovery was the last house on the block for me, but quickly became the bedrock of my life.”

God Bless
Steven C.

“For the last couple of years, I have lived in my own modern apartment in Pathway-IV. I have everything any up to date apartment would have. I live in a building with decent, friendly, people in a clean, safe atmosphere. I am able to do this on my little income and Pathway’s help. Because of Pathway and its staff, this 62-year-old man knows what the word happiness means.”

Thank you Pathway
Gary B.
